

# PIPE & TANK REPAIR KIT

North Sea Resins™ (NSR) Rapid Repair Kits and Refill Packs are time saving tools that can be used for pipe, tank and general maintenance repair applications. Since the resin cures on command once activated by the NSR BLUE Light, you know immediately about the success of this field repair solution. No need to worry about moisture, repairs can be done on wet surfaces- even underwater. Maintenance downtime can be minimized due to the rapid cure time and minimal environmental limitations associated with use of NSR products.

- 30 SECOND CURE-ON-COMMAND
- WET OR DRY SURFACES
- METALS (COPPER, STEEL, CAST IRON, ALUMINUM, BLACK PIPE )
