JULY - AUGUST 2021

VH150

VIQUA WHOLE HOME UV WATER DISINFECTION SYSTEM

The Viqua VH150 System is an ultraviolet disinfection system that can safeguard your drinking water in a reliable, economical, and chemical-free way. This system contains high performance UV lamps that have been rigorously tested in order to ensure there is a constant output over the duration of the lamps life (9000 hours). This system is perfect for wide range of whole-home, point-of-entry water treatment solutions in homes, cottages, or OEM applications.

BENEFITS

- Easy to maintain and service.
- Compact and practical size
- This system can inactivate chemical resistant parasites like Cryptosporidium and Giardia, and E.Coli as well as viruses.
