

# NORTHEASTERN SUPPLY NOW STOCKING OASIS PRODUCTS AND PARTS.

## THE OASIS DIFFERENCE

- **Durable Units:** OASIS units are made with galvanized steel with a powder coat.
- **Antimicrobial Copper:** Continuously kills pathogen on touch points. Push pads come standard. Optional copper tops.
- **Retrofit Bottle Fillers:** Fits on existing OASIS coolers and most competitor units.
- **Freshield:** Alcove plastic is manufactured with our exclusive silver-based antimicrobial compound.
- **Universal Rough-In:** Installation made easy with large openings in the frame.
- **Mechanical Activation:** Works during power outages and less expensive to replace. No need for electrician coordination on new construction.
- **QUASAR Bottle Fillers:** UVC-LEDs disinfect the water when it is being dispensed reducing 99.99% of pathogens. Only bottle fillers on the market with this technology.
